

HAGAN

PERFORMANCE & RANCH
Horse Sale

Brandon, Manitoba

SATURDAY
OCTOBER **24** 2015

SALE TIME 12:30 PM

www.haganhorsesale.com

The Hagan Family

has been involved with rodeo
for more than 36 years

Shawne

- 2008 MRCA Hall of Fame inductee
- 19 time MRCA finals qualifier steer wrestling and calf roping
- Shawne has been work on his heading this past year; at 60 he is roping better then he ever has.
- He told us all at the start of the year "I finally have an outstanding heading horse (Keeper) and I plan on taking advantage of it!"

Harley Mae

Harley and Ringo are now loping the barrel pattern! They entered their very first rodeo this summer. The home town crowd LOVED them! The duo are looking forward to the Manitoba Barrel Racing Finals in October. She and her old friend Maverick spent the summer roping the heel-o-matic. She entered and came close to beating the boys at the Casey Brown Memorial dummy roping this summer.

Slade

Slade enjoyed roping the heel-o-matic on Bruno and Ringo this summer. He practiced hard for the Casey Brown Memorial dummy roping. Slade and Harley both won their first-ever buckles this summer in the peewee barrel racing. It seemed that Slade rode Ringo around all summer at one speed, and that was a lope! We were constantly telling him to slow down! When it was time to go "cowboying" though, Bruno was his man.

Thomas

- 2006 CCA Year End High Point Champion
- 2006 CCA Year End Steer Wrestling Champion
- 2006 MRCA Year End High Point Champion
- 2007 MRCA Steer Wrestling Champion

Erin

- 2014 True Grit Barrel racing saddle series Champion "Gracie"
- 2015 Dash for Cash Champion "Gracie"
- 2013 MRCA Horse of the Year "Gracie"
- 2013 MRCA Yearend Barrel Racing Champion "Gracie"
- 2015 will mark Erin's 13th qualification for the MRCA finals on 4 different horses (Digger, Bronze, Kruz and Gracie)

Alistair

- 2014 MTRA #12 Champion Header (first championship saddle ever!)
- 18 time MRCA Finalist Steer Wrestling and Calf Roping
- multiple CCA Finalist Steer Wrestling
- 3 time MRCA "Cowboy of the Year"
- Multiple MRCA & CCA Steer Wrestling & Hazing "Horses of the Year"

Our Program

Howdy'all thanks for taking the time to look over our catalogue. We hope you read the write ups on each horse and call us to ask us questions about any or all of our horses. We are very proud of not only these horses on offer October 24th but also the program we have worked so hard to create. We do not claim to have "re-invented the wheel" we just stick to our mission statement (to start with the best horses we can, make them real ranch horses, horses that we use for our day to day ranching and offer them for sale with honesty and integrity). We feel today's buyers are better educated, wiser buyers. They know what they want; they want a good, safe, been there done that horse. And they want to buy a horse from someone who is honest, someone who can and will help them not only to pick a horse that fits them but also someone who will help them after the sale. We understand that not everyone is looking for the same thing in a horse, we may not have a horse for everyone but we do promise you that we pride ourselves in presenting our horses honestly. We feel strongly that alone will make Hagan Performance & Ranch horse sale stand the test of time. Knowing that not everyone is looking for the same thing in a horse; some want them better broke than others but everyone wants them safe! People want to know how they will "react" to any given situation. In our opinion you can make both safe and broke horses on the ranch. We pride ourselves on being students of horsemanship, we take clinics, read books, watch videos, and do our best to improve and grow our knowledge but most importantly we spend time in the saddle. Like most people we start our horses in the round pen and or the arena but then move outside as soon as we can. We start with simple trail riding, covering miles, down the ditch, riding over fallen trees, through water, etc. Next they are used to check fence or move cows and then it's back to the arena for simple dry work, working the flag, dragging a log, roping the heel-o-matic and track steer, mock branding and next thing you know they are in the work string. They first start with moving cows in the feedlot and then they graduate to alley sorting, branding, round penning colts and finally roping and doctoring cattle in the open. After long ranch miles we move them back into the arena to refine their handle. All of our horses have done lots of cow work and if they excel at it maybe they could move into the penning or sorting or if it is a fit they begin their career as a team roping, barrel racing or calf roping horse. We strive to do every job possible on the ranch on horseback; we have 3,000 head of cattle to care for in a season and we do all of this ranch work while riding these sales horses. We pride ourselves in the fact that our horses "enjoy life" and like to be ridden. It is within those parameters that we begin the culling process, as not every horse that we own makes the sale.

Our horses come from all different walks of life from all different situations or sales; some we have raised or bought as babies and started ourselves, some we have bought with 30 rides on them and rode them for 2 or 3 years and others we have only owned a short while. Sourcing these horses that we deem "good enough" is a full time job, we never know where we may find one or when and so we are always looking. No matter where we find them or how long we have owned them the same principles apply to them all. When we find one that peaks our interest (good looking, sound, attractive, athletic horses) we bring them home and begin the "screening" process; are they safe? Will they stay sound? What can they handle mentally? And are they fun to work with? And trust us not all horses make it. Once these horses have made it through the "screening" process and we have spent the hours in the saddle furthering their training, getting to know them as individuals we allocate them for the sale. Then following this whole process we try our best to give you as much information about each of these horses as individuals as we can. Between their write ups, videos or simply a visit with you on the phone, we try to give you the info you need to pick a horse for you. All 12 of these horses on offer have been used on the ranch for real, they have been put in real life ranch scenarios and we have put them in enough of these situations that we are confident in how they will "react" and that is why we believe so much in "Ranch horse beginnings".

We sometimes joke that we are more of an adoption agency for good horses looking for good homes for the rest of their days than we are a horse sale and that we are very proud of that. We go out and make the miles and "source" horses that peak our interest, take a chance, buy them, screen them, then we bring them all together for you to pick on October 24. We feel this process of "consulting" is the service we provide to you our buyer. We welcome all buyers, families looking for an all-round horse, team ropers looking for the next "big timer" or someone who sees a horse they can spend the winter on and double their money. Come one come all.

If we did all the things we are capable of, we would literally astound ourselves. -Thomas Edison

The Hagan family consists of three families united and proud to produce this high quality horse sale.

Shawne and Jocelyn are the proud parents of 4: Alistair, Amanda, Thomas and Bronwen, and now grandparents to 3: Harley Mae and Slade and introducing Rory. They are both very proud of the all of their children and the fact that they are close with them all and they are especially proud of the fact that their children may not all have the same passion's in life but they are all passionate about what they do and the direction that they steer their lives. Both Shawne and Jocelyn love being grandparents and spend a lot of time with Harley, Slade and Rory. The kids love going to their Nan Nan & Papa's house and there isn't a day goes by that Papa Shawne doesn't stop in to see them. Shawne and Jocelyn live on the Hagan family farm where Shawne was born and raised just 14 miles southwest of Virden; they have been involved in every aspect of ranching and farming; from the purebred Charolais business to grain farming to the PMU industry, to the current cow/calf/yearling operation maintaining a cow herd of 200 Momma's. They are excited about the future in the cow business and have even bred a nice set of red baldy heifers this year. Shawne likes to note that this year between his own cattle, being the main man with Alistair at the community pasture and custom grazers and Thomas's cows and "custom grazers"; he is riding on over 3000 head again this summer. That's a pile of "cowboying". Shawne really enjoys spending time in the saddle with his family; you have never seen anyone as proud as him when he is riding side by side with Harley and now Slade moving cows. 3 generations of cowboys all because when he was a boy he had a desire to be a cowboy. Shawne prides himself on "making friends with his horses" and picking out that next "good one". Shawne loves going on horse buying trips, hunting, roping with the boys at Kings Crossing or just simply enjoying some good company and a beer. Jocelyn is still working off the farm as a member of the team at the Virden Co-op and really enjoys both the people she works with as well as everyone she meets and greets on a daily basis. She makes sure that everyone who goes through her till will be having just a little bit better day when they leave and because of that the line at her till is always the longest. Work is fine but Jocelyn is happiest when hosting her 3 grand babies, any or all of her kids and or her sisters. Simply put she loves family!

Alistair, the oldest of the Hagan siblings and wife Erin have been busy with lots of changes since our last sale! Harley Mae is already in Grade 3 this fall and absolutely loves school and Slade man is going to Kindergarten! Wow; how did that happen? Harley loves both school and the school bus and was proud to take Slade onto the school bus for his first day. They are truly best friends having all sorts of adventures on the ranch. This year they were excited to get to meet their new cousin Rory. Harley wants to hold him all the time and Slade man can't wait for him to be able to play with him. "Ringo" their palomino pony, now 6 has been amazing for the kids again this past year. Between him and Bruno both kids were just riding anywhere and everywhere all on their own, from trailing cows to barrel racing or just spending the day hanging out with the Cowan & McGee girls a horseback at the jackpots racking up the miles and building lifetime bonds. Both Harley and Slade love horses and are very active; besides riding all winter they also skate and do gymnastics.

Alistair and Erin are very proud of the ranch they have built together; just down the road from Shawne & Jocelyn they live on the original Hagan family farm which the family first settled upon arriving from Ireland in 1913. They currently maintain a herd of 250 British cows, grass their own calves, run around 50 head of horses and continue to operate Hagan hoof trimming tip table business. Alistair continues his role as Manager of the Wallace (Kirkella) municipal pasture; a job which not only does he love but is also a great fit for the horse sale. They added more custom grazing cattle this year at their original home place. The cows were trailed to the land at the lake and 650 8-weight yearling steers were grazed at home. The hard work building cross fences to break the pastures up into 40 acre paddocks and doing their best to rotate/rest and manage the soil/grass is starting to show real results even on their most sensitive sandy soils. They feel they are on track for their goal to be able to graze 1000 steers within the next 2 years, graze their cows from April 1 to December 1 and have more time to ride as a family. It was a great year; enough rain but a break from the floods. Grass, cattle and horses all look great.

There are 9 outstanding “BF Streakin Merridoc” foals to wean this fall and 11 more coming next spring. Erin has been very fortunate selling her “Merri” babies to some very good hands and having a lot of people come to look again this year. She is very proud of this year’s foals and excited to see them all grow up. Erin had an awesome year hauling her 1st “Merri” baby; Hagans First Winner (Rainie). She was everything she could have asked for and more at both the futurities and big jackpots getting faster and more consistent all year. (Pretty cool Rainie was the first colt born on the ranch.) Alistair and Erin enjoyed another great rodeo season with a few less miles made but a lot of fun with Thomas, Felicity and Rory joining them in the old motor home; Quality family/rodeo time. Erin had another great year with her good mare Gracie and the duo have already booked their ticket to the finals yet again. Alistair entered both the steer wrestling and the team roping at rodeos this year and will be looking to make it in both events. Both Alistair & Erin are very committed to the rodeo and ranching lifestyle and continue to donate all of their spare time to the MRCA and the Wheat City Stampede. Erin is very excited about the years to come as the kids gain some independence but all of a sudden she finds herself lonely during the days. She is riding more horses than she has in years but can’t wait for that bus to roll up to the yard! Spending as much time as possible with the kids at her side; taking them to their activities or just hanging out outside going on all sorts of adventures. Alistair was very lucky to be part of the “American” rodeo this past winter. Going from South Dakota to Arizona to Texas with good friend

Charlie King and then getting to haze for him at the semi finals in Fort Worth; a life time experience! While in Texas they got to stay and rope with Walt Woodard for 2 days and also steer wrestle for a day with K.C Jones!

Erin took all of the sale horse pictures again this year and Alistair got to do a little auctioneering as well. Both strive to continue their education in horsemanship and this year they once again had the opportunity to organize and attend some great clinics. Huge is the fact that the whole family spent a lot of time together; either a horseback or camping in the motorhome. Alistair and Erin both feel that spending time with good people and enjoying horses together will build lifelong bonds. No matter if it's a ranch horse, a futurity prospect or a pony, both feel the best way to improve your horsemanship and to make a good horse is to simply spend time in the saddle riding, paying attention to your horse, having fun and surrounding yourself with good people. They truly do this as a family and are working hard to instill a love and respect for this way of life with Harley and Slade. Both can't believe how time fly's by; they love their family, their horses, their land, the ranch life and are looking forward to the future.

Rory Shawne Anthony Hagan joined the Hagan family on June 15, 2015, at approximately 1:00 p.m. He weighed in at a whopping 9 lbs. 13 oz. and is continuously growing! Thomas and Felicity have spent a lot of time this summer showing Rory how to fence, move cattle, ride horses and a life on the move. They are very lucky to have such an accommodating baby that allows them to continue on with their daily lives while enjoying a smile and a giggle from their happy boy!

Thomas kept himself busy this winter riding horses, shoeing and halter breaking colts for Doug and Deb King. By the beginning of April shoeing started to pick up and cows started to calve. Felicity continues to work for the Virden Community Chamber of Commerce and helps where she can on the ranch while looking after Rory. This spring they purchased roughly 100 heifers to breed and sell this fall. The summer was then consumed with running their cattle herd, custom grazing 100 heifers, shoeing, fencing and riding. Thomas has been heading down the road steer wrestling at MRCA rodeos and entering team roping's. They feel very fortunate to be travelling to these rodeos with Erin, Alistair, Harley and Slade in their motor home, allowing for a little cousin play time!

They continue to take many courses and workshops that focus on grazing and management. They attended Steve Kenyon's 3-day course this spring, Don Campbell's Holistic Management Course and Johann Zeitsman's Sustainable Grazing Course. Each of these workshops were based around the same principles but offered a different perspective. These two also have met many new people while taking these courses and created a network of individuals which they bounce ideas off of and share common knowledge with. Owning 7 quarters of land, these two have developed a 3-year plan to fence this land which allows them to do a better job of grazing and production. Thomas and Felicity also became a part of the Verified Beef Program this year. It has given them a taste of what they believe is to come in the cattle industry and the accountability it puts on the owners.

Thomas and Felicity are looking at another new venture this year. They currently live on a quarter section near Lenore, Manitoba on the side of the valley hill and are looking at relocating to their pasture, nearer the rest of the Hagan family. This move will allow them to run and manage their cattle herd and graze better. They are excited about this new venture and swear this is the last move they'll make! Once again summer has flown by, but it has definitely been enjoyable with their new addition Rory. They are very lucky to have both of their families close and have noticed more traffic in their yard since his arrival, especially from the grandparents! They look forward to winter where the pace slows down, but continue to enjoy each day as it comes.

All the horses on offer have been ridden extensively and have taken on the job we feel best fits them. We pride ourselves in "OUR" horses being what we say they are; if that's quiet or fast or whether they are ranch horses, started team roping horses or rodeo ready horses. We ride a lot of horses as a family and cull very hard. We do our best only to sell horses that we feel will truly have a future and have done our best to select the best horse we can. We invite you to not only watch the video on each horse but to also come try out and ride any or all of the 12 horses on offer this year. Questions are welcome and there isn't a question we won't answer, we pride ourselves on being honest and approachable. Please check out the testimonies or call us if you see anything that you like and we will do our best to find a horse that fits you as an individual and then stand behind them after the sale.

Thanks for your interest and if you wish to see a video please go to our Facebook page or check it out at www.haganhorsesale.com

High School Rodeo competitors, 3D barrel racers, ranchers and trail riders – here's the one. I have been shoeing horses for Shelley Barsness for the last two years now and she has been hounding me this summer about how we need to own this little brown mare of her daughter Courtney's. Finally, I rode her around in Shelley's arena and loved her. She is just what most people are looking for: quiet, small, good looking and very well broke. Bell has had 30 days of professional barrel racing training and then Shelley and Courtney hit the road going to 3Ds for two seasons. This mare has a nice pattern on her and has been to town, so she is ready to compete. Two days after picking bell up, I was rounding up Alistair and Erin's cows and dragging calves at their branding. She is the kind that you can saddle up every now and then and not worry about the first five minutes of the ride. Every year at our sale people ask if we have a horse that they can pull out of a pen and go to their neighbour's branding, cattle round up, or take on a nice leisurely trail ride with their friends, all that without having to worry about getting into a wreck because the horse hasn't seen a lot of miles lately. That type of horse needs first and foremost the right temperament, and that is exactly what

we have here. She is quiet, she is the right size, and she is broke! Felicity hasn't ridden since last winter and we had to round up a stray cow from the neighbour's pasture. I saddled up Bell and Felicity, hopped on and rode her up and down the valley hill, through bogs and bushes and the mare looked after her just like I knew she would. After we returned to the ranch she asked me why we sell all the good ones! So don't sleep on the fact that this is a mare folks, she doesn't act like one and I think with all that this horse brings to the table it shouldn't be a factor. So here is a chance at a well broke, well rounded horse. That is the type that this sale is all about.

Lucky Joe Five
Squaw's Glo
Jimbo Reed
Zetta Reed

Bruno is the one! He is a gorgeous buttermilk buckskin; with a baby doll head, big hip, black mane and tail, and he is broke, but best of all he is a babysitter. Bruno is safe for anyone from 5 to 95! We bought Bruno from Joni Venaas of Moosomin and she did an awesome job with him. Joni started Bruno and then showed him as a 3 and 4-year-old at some small shows, but had put him on the back burner and not ridden him for a couple years when we got him. He never skipped a beat with his time off. I spent the winter riding Bruno at Kings Crossing and right away started heeling on him. He moved quickly into his role as a ranch horse this spring. We calved the cows on a half section of bush/creek pasture and road on them every day. Bruno's quiet demeanor made tagging calves easy; I could just step off and grab the fresh ones, rope the older ones, or tie him to a tree with my get down if I had to tag several calves in the bush at one time. No matter the situation he was just there quietly waiting for me. On the ranch, Bruno is also awesome in the branding pen and easy to doctor cattle on but he has been to town too. I used him in the Ranch rodeo, sold the Calcutta off his back, rode him in the local

parade, but all that aside my favorite thing about this guy is watching either Harley or Slade ride him. They can move cows on him, take him in the rodeo parade, chase the heel-o-matic or just go trail riding all while staying safe. Literally, I think anyone can ride this little man. Watch the video and you'll be able to picture yourself moving the cows or at a branding on the fanciest horse there and most importantly feeling safe the whole time. Bruno truly is a life changer – either get your grandchildren's long love affair with horses started or ride out the end of your long horse career on the best one yet. We feel very fortunate to have gotten the opportunity to own Bruno; we have enjoyed him every day and now we are going to offer you this same opportunity.

GRADE | 15 HH
12-YEAR-OLD BLACK GELDING

A photograph of a cowboy wearing a blue shirt and a cowboy hat, riding a dark horse. He is holding a lasso and looking down at a brown cow in the foreground. The background is a grassy field with a fence line.

kind of person who likes a horse with no bottom or quit, a real cowboy but maybe you have gotten to the stage of your career where you need them safe; this is your man. Romeo is the best of both those worlds. Go all day, cover ground, walk out with no quit but still feel safe. He is as good as having two horses. Dad has made Romeo into a nice ranch horse, using him as his main mount at the community pasture all year treating cattle. Head them or heel them, sneak rope or run one out, tie off, he is just fun to rope on. One day we were trying to make some miles, long trotting across the big pasture, we were crossing a field that hadn't been grazed yet with long thick grass, and Romeo stepped right on a prairie chicken. It flew up and hit him right in the nose! Dad jumped 3 feet out of the saddle but Romeo never broke stride. So if you like one that is pretty, fun to ride, easy to hit the stirrup on and safe, then Romeo is for you.

Courage is what it takes to stand up and speak. Courage is also what it takes to sit down and listen. - Winston Churchill

Three Englishman, one Irishman and me out on a cold February day trying out a pretty little palomino, and no that is not the first line of a joke – that is how we found Mac. We purchased Mac from Mackenzie Rowe, hence the name, where she rode him a lot in the arena and her father used him a little at the auction mart. This horse is a sweetheart to be around and handles everything in stride. I spent a lot of time riding this horse in the arena and he lopes a nice circle. He has drug a log and responses to your leg well. While checking cattle, Mac has been up and down hills, through bogs, water and bushes and doesn't think twice. I found he is great in the branding pen and around cattle because he likes to move really slow. He has been ranched on, treated cattle and drug calves. This guy is a nice mover, but a slow mover so he would fit the rancher and trail rider. He is one of the first horses to come up to you when you go and catch them and is happy to be in your company. All in all, Mac has been a great asset to our operation this summer and we are excited to offer him for sale to the public this year.

Here is yet another Boyes quarter horse! This big, fancy, dapple grey is quiet and safe. We bought Quincy from our friend Tyler Quam; he called and said he had a horse he thought would be perfect for us and he was right. Tyler had sold Quincy to his neighbors as a 2-year-old with a month's riding on him for their 12-year-old daughter! Time marches on; the young girl was now off at college and so Tyler got him back last fall. He hadn't been ridden in three years and Tyler put one ride on him and sold him to us. When we got him home, I simply saddled him up and took off right down the road; strange place, new people, different saddle – no troubles at all. He was exactly what Tyler said he was. That right there answers one of the most frequently asked questions we get: "What is this horse like with some time off between rides?" Quincy has since become a nice ranch horse. He is as strong on the horn, and because of his size he got a lot of jobs that were maybe going to require a bigger horse. First real ranch job he had was halter breaking the yearling colts; a great test of stamina, strength and patience. When we worked dad's January-born calves in August, he was dragging them like June-born calves! Quincy can walk out, is a nice horse to brand off and doctor cattle on, tracks up on a cow, ties off, but best of all he is just a big gentle giant – fun and safe to go for a ride on.

GRADE

7-YEAR-OLD SORREL GELDING | 14.2HH

Consigned By THOMAS & FELICITY

Erin Hage

We got this great little horse while on a trip with friends of ours. He was a 14-year-old girl's trail horse and she loved him, but her parents were moving to B.C., and Tango wasn't going to make the trip. We bought him that day and when we went back two weeks later to pick him up, she told us of all the things she could and had done with him. By the time she was done regaling all her stories, I seriously doubted she was going to let us have him. Tango has fit right in around here and has been nothing but a pleasure to ride on the ranch. He is a great sized horse for someone who doesn't want a big jump to hit the stirrup, but in the branding pen he can drag calves as good as any of our horses and that is a testament to Tango's heart and ability. As for his athletic ability, I have been pleasantly surprised. He would be my pick out of our four horses to make into a performance horse. I think he has "heeling horse" written all over him because of his size. He has lots of gears and is light on his feet, and the mind to keep it all together. That is a great combination in the arena no matter which event you are working. We get all types of people looking for horses at this sale, and I would say after riding Tango for this long that he fits the crowd of people wanting a nice, quiet horse to trail ride on, right through to someone looking for a horse to take to the next level in the arena. We simply can't say enough good things about this horse: quiet, athletic and an absolutely great horse to own.

If I could use one word to describe this horse it would be elegant! To watch this horse float over the ground is something else, but to be on his back is even better. Dad said the other day, "You know if I was a person who was going to only own one horse, this is the horse I would want." I thought that this was a very good way to describe this gelding. Louie could do so many different things; he is big enough to take a hard day's work, athletic enough to be a big time head horse and elegant & trainable enough to make a show horse. Dad bought "Big John" and I wanted one of these horses too (same sire); Wayne told me of this gelding he had sold to a neighbor family some years ago. They had just moved into his area from Germany and wanted a horse. Wayne put the first 30 days on the gelding for them, after that they just took him home and started trail riding! The family lost interest in horses and Louie was looking for a new home. He hadn't been ridden in a couple years, and I just got on and off we went. More impressive than his gentle nature was his desire to learn; Louie is very trainable and he just started learning that first day back. He has a ton of forward motion with a natural head set, he is a very nice mover, smooth at a lope, picks up his leads naturally, stops, turns around, and can cover a lot of ground in a day. This elegant gelding is a nice horse for long rides; I have used Louie to hunt down strays through bush and water, lead off big groups or yearlings, load trucks in the alley and chase horses. Louie is a nice horse who truly enjoys people and attention. They say colour doesn't matter, but come on, how many actual buckskin roans have you ever seen?

Bill did it again. We have been saying it for a while now – it is getting harder and harder to find good, sound, quiet horses with an overall safe demeanor. Well, good thing we have good friends. Dad's best friend Bill Harding called and said he found a "dandy" right down the road; a real nice horse whose owners had just lost interest in riding. Dad drove down, and at first we wondered if it was just an excuse for Dad and Bill to have a visit, but Dad arrived home the next day with his chest puffed out: "Just wait till you see what I got in the trailer boys." We unloaded him, looked him over, saddled him up and road off. Five minutes into the ride, dad said, "Do you think he'd let you swing a rope?" Five minutes after that I was roping the track steer and dad was just grinning ear to ear. "He's the kind," he said. That was it, Dad was off then, taking him to the brandings and up to the pasture, and next thing you know he was saying "I think I should just keep this horse; horses like this are getting hard to find for us 61-year-old cowboys, you know". Dad rode Parker all day while we shipped the custom grazers at home, working alleys and loading pots. As soon as the last one was on the truck, Harley made Papa give up Parker to her. He is safe, good looking, the perfect size and can lope in a box stall.

Pictured at left, full sister "Rainie"

We are very proud to start this chapter of our life. We have waited a long time for this; the first "BF Streakin Merridoc" colt to be offered by public auction. Sophie is bred to run; her dam is a money-earning race horse and she looks like it; she has the perfect slope to her shoulder, a short back and long underline all with a kind eye. Sophie is the full sister to our first home raised Futurity horse; "Hagans First Winner" or "Rainie" as we call her. Erin has done an exceptional job on Rainie and has had a lot of success with her to date; hauling her to futurities and big jackpots in the barrel racing this summer and she will also be entered

in the Manitoba rope horse futurity in mid October. Rainie is possibly the most trainable horse Erin has ever ridden, this cross works! Multiple NFR qualifier Judy Myllymaki has Sophie's 3-year-old full brother and she says "He is very, very agreeable and laid back and he is already high loping a sweet pattern!" The 4-year-old sister suffered an injury as a yearling but because their mother has been such a good producer for us in her short career (only 9-years-old now) we kept her to add to our broodmare band as the first daughter of "BF Streakin Merridoc"! Sophie like her full siblings is very pretty, trainable, talented and easy to work with. We are very proud to offer a filly of this caliber for sale from our breeding program. Please know it takes a lot of time and effort to offer a filly like this to you. Sophie is sound, pretty, coloured up, out of a proven cross and riding. She also sells with a CBHI SUPER STAKES attached so we are very excited to see on October 24 who will be the lucky new owner that gets to run this sweetheart for \$140,000 fall of 2018.

This dude was born and raised at our place and he has been the one everyone has asked about from 3 days old to today. He quite simply turns heads; he is stout, coupled up, correct and very good looking but he is also safe. Sonny was bred to be in the arena; he is out of our own daughter of Strawfly Special (mother to Jane Corey's roan 3-year-old "Merri" baby) and by the great young sire PC Double Frost. He is a half brother to Rhen Richard's 2014 Northlands team roping futurity champion head horse and he himself is cowy and easy to see cattle off. We sold this gelding to our good friend Jay Sibald as a 2-year-old and he then had Thomas start him. Jay took him home as a 3 year old and put some time on him the next summer but decided what he really wanted was an aged ranch gelding. Jay offered us first chance to buy him back and we jumped on it. Jay purchased William from the 2014 sale and we have been riding Sonny since he got back last fall. Sonny has a solid ranching foundation; he has been Erin's go to ranch horse this season starting with gathering mares everyday for breeding, moving cows and branding then I started him rotating and doctoring yearlings. Sonny also has a solid start in the arena; in both barrels and heading. We feel this foundation has prepared him for wherever life takes him; ranching, arena or both. So here he is; a 5-year-old well bred, very good looking, safe ranch horse/arena horse with his whole life ahead of him.

We bought Charlie off of Dad as a 2-year-old with 60 days riding. We then put her in our infamous horse program where we let 2-year-olds grow until they're 7 before riding them again! When describing Charlie, I would say she has piles of character. I really enjoy riding her and she has been the horse that I have done the most branding and ranch work on this summer. She is all try this little girl, and at Ryan Boyd's branding this year while roping a 1,700 lbs Charolais cow (which is about 500 lbs more than she weighs), she showed her eagerness to please. Charlie is the type of horse that with an experienced rider on her, she is handy to have around. She might look at something once but the second time around she's a pro. I've treated yearlings, drug calves at brandings, rotated cows, and went in dugouts after foot rot bulls on her. So with an experienced rider, this girl is a trail horse, to a ranch horse, and everything in between.

Create a life that feels good on the inside, not one that just looks good on the outside.

Dr. Joe King and Dr. Everett More offer a broad range of equine services
Including: In-depth Lameness evaluation and treatment, Medicine & Surgery, Veterinary Equine Dentistry, Digital Radiography, Diagnostic ultrasound, Video endoscopy for a variety of conditions including gastric ulcers. We also offer comprehensive Reproduction services including A.I. with fresh, cooled or frozen semen as well as collection and freezing of equine semen.

We strive to offer excellent service with current therapies and competitive pricing for all of our equine clients.

Thank You

We are very proud of the fact that we buy so many horses locally. Thank you to all of these local breeders, our friends, who produce these outstanding and talented horses. It is our hope that you are as proud of them as we are and it is our pleasure to work with you time and time again. Thank you to all of our previous buyers who have made our sales successful and continue to inspire us to keep doing what we do, turn out great ranch horses. We can not say it enough, we love to hear about how the horses are fitting into their new homes. We are only a phone call away or better yet the coffee is always on. A HUGE shout out and Thank you to all of our friends and family who not only help us behind the scenes at sale time but also on the ranch year round. Without you we would not be able to do all that we do.

It might take a year, it might take a day, but what's meant to be will always find a way.

Testimonials

I purchased a 9-year-old Quarter Horse gelding from Alistair and Erin Hagan. I found the entire family to be completely up front, honorable, and fair while presenting each horse to me. It is important to the Hagan family to find just the right fit for both horse and rider. My gelding has been all that Alistair said and more. For my next horse I will definitely be making that call to Alistair and Erin. Great people!

- Alan Cossentine

Kaleden, British Columbia

I purchased Joe in the 2014 fall sale and he has been an amazing addition to our family! His laid back personality, patience and willingness to do whatever our family asks of him has been a blessing while my children learn to ride. Joe loves attention, greets us at the gate and is an all-around awesome kid's horse. Next spring we plan on starting gymkhana events with Joe and are excited to see where that will lead us!

- Brianne Hinson

High Level, Alberta

Mick is the second horse we have purchased from the Hagan Performance & Ranch Horse Sale, and yet again she is everything Thomas said she was. We have used her to check pens, pull cows to A.I. this spring, drag calves during branding season and now treating in the pasture. She is a go anywhere, do anything kind of horse and we have yet to find something she doesn't like to do. We are very happy with the horses we have purchased from Thomas, I'm sure we will be back in the future.

- The Ja-Lyn Farms Crew

I bought William in last year's sale and he is the second horse I have bought from the Hagan family. He is once again exactly what they said he was. He is really nice/safe horse that I use for all aspects of ranching. Thanks again for another good one!

- Jay Sibbald

Cochrane, Alberta

We bought Hickory from the Hagans at their 2014 sale. He is a very gentle horse and a great ranch gelding. He is always willing to do anything and is very broke. The day after we purchased him, he was used as a pick up horse at the MRCA Rodeo finals and handled everything with stride. We are very happy with him.

- The Yarshenkos

Maple Creek, Saskatchewan

The Hagan family experience was second to none. There are no smoke and mirrors. From the first time I contacted them to talk horses, to the delivery of Bailey, there were no surprises. If you're talking performance and ranch horses, there is only one sale to be at in October.

- Peter King

Fort St. John, British Columbia

Wanted to give you a quick update on how we're making out with General. He's everything you said he would be. General arrived at my farm in November and wasn't ridden until April, and wow he's amazing. The joke around my barn is if God made me pick between General and my husband, who would I pick? Well, of course, General!!! Love him, he's amazing, looking forward to see how far we go next year!
